## **Pat Beacon**

**Winner of the Ken Latty Memorial Trophy for the period January to April 2011 for Monday afternoons**

Regrettably the previous trophy was damaged in transit during the past year but I did not notice this until it was pointed out to me recently. Being made of resin makes these trophies susceptible to breakage, so I have therefore purchased a

replacement which is a silver salver with gold trim that sits into its own wooden stand and which will hopefully be more robust. It is also inscribed. Hope you like the new one.

### EDITORIAL

*Having purchased a laptop it is now possible for me to score during the afternoon sessions when I am not playing so that a provisional result is available before you go home. Obviously this is dependent on my not playing. However, I will be purchasing a wireless scoring system for the club in the very near future. This takes the form of small computers on each table and the contract, number of tricks, polarity etc. are put in by North or South with East or West verifying ,(eventually taking the place of travellers) and the results are then sent back to the main computer to give an "instant" result at the end of the session. For the time being these will be used on Wednesday evenings until I am satisfied I can get it right*

*and then hopefully they will be introduced into our afternoon sessions, so you will be able to have a result before you go home, whether I am playing or not. Paul Janes and Robin Levett have also "volunteered" to help with the computer side of things when they are playing. The table computers are easy to use and will help those of you, who like me, find writing difficult because of fingers that don't want to work properly.*
